Check each item below and indicate that each item has been inspected in the appropriate space. If a product component is marked as No or Not appl; cable, describe each discrepancy in the comment box provided. Immediate action must be taken to correct any discrepancies. The owner is not permitted to operate the machine until all differences have been updated. Please submit this form to: reception@carneybatteryhandling.com within 15 days from the date of inspection to activate your warranty.

	Y	N	C	NA	Y=Yes (Passed) N=No (Failed) C=Corrected NA = Not Applicable
1. Visually inspect the unit for damaged or missing parts. Please mark the following items below.					COMMENTS
Check battery slide strips for damage and security					
Visually inspect for any loose or missing bolts					
Check magnet face for damage					
Check front roller and bumpers					
Inspect curly cord					
2. Check that the bridge is properly aligned					
3. Ensure all electrical components are secure					
4. Check gear motor mounting for security					
5. Ensure the electromagnet times out after inactive for 5 minutes					
6. Check bridge limit switches for proper adjustment & security					
7. Check all chains for tension					
8. Ensure the battery tugger is securely mounted to the host pallet truck either with the optional quick clamp or permanently bolted/welded to the truck legs					
9. Confirm the owner manual has been reviewed by service technician or customer. The product manual can be downloaded via QR code located on the serial plate.					

The undersigned certifies that this machine has been inspected according to the requirements listed above and that any and all discrepancies have been brought to the attention of the owner/user. The undersigned also certifies that all discrepancies have been corrected prior to any further use of the machine and understands that failure to meet these requirements will result in a void of any or all warranty claims for said machine.
