## ALUMINUM BATTERY ROLLER STAND

Our Aluminum Battery Roller Stands are designed for service technicians. These lightweight stands offer a simple, cost effective and easy way for technicians and forklift operators to service batteries on the go. The innovative design includes a built-in backstop and safety latch to keep batteries in place during service. A one-step solution, these stands are easy for anyone to maneuver. They come with adjustable legs to accommodate uneven floors anywhere, perfect for unpredictable battery handling.
