BATTERY TUGGER ELECTRIC

The Carney BTE or Battery Tugger Electric has left its mark on the industry. Today, this unit is trusted by organizations around the world to simplify battery management. Designed to transfer industrial forklift batteries of varying sizes, the BTE can be operated using any host pallet truck battery pack, it is available in a variety of voltages from 24 to 48, ensuring its compatibility with standard material handling equipment, and making it an easy addition to any forklift fleet.

Each unit is coated with an acid-resistant powder coating and equipped with a powerful electromagnet for safe, seamless battery extraction.

DURABLE CONSTRUCTION

The BTE is solid-welded as one piece ensuring durability that is designed to last a lifetime.

ADD-ONS

A plethora of add-ons are available for the Battery Tugger everything from a bolt-on safety gate to a narrow battery guide or emergency stop integration.

FULLY ELECTRIC

This unit is entirely electric and energy efficient, powered entirely by any chosen pallet or forklift truck.

LEAD ROLLERS

The BTE uses a lead roller to ensure a smooth, damage-free battery exchange every time.

ADAPTABLE

Adaptable to fleets of varying sizes and coupled with custom roller stands and charging configurations the BTE is built for optimal compatibility.

WARRANTY

Every unit comes with a standard 1-year warranty for your protection and a 5-year warranty on the electromagnet.

KEY FEATURES + OPTIONS

- ✓ Custom colours available
- ✓ Magnet power on/off switch with adjustable time out
- ✓ 5-year electromagnet warranty
- ✓ Quick clamp for secure mounting
- ✓ Fold-down battery guide for narrow batteries
- ✓ Front safety gate
- ✓ 10-pole electromagnet recommended for batteries between 3,500 - 5,000 lbs
- ✓ Emergency stop controls
- ✓ Forward/reverse and raise/lower controls by host truck
- ✓ Magnet bridge travel
- ✓ Extension limiter
- ✓ Array of standard sizes 24" to 48"
- ✓ Aluminum drop-in beds
- ✓ Flexible mounting options

	<u>STANDARD</u>	<u>METRIC</u>
Unit capacity	5,000 lbs	2268 kgs
Powerpack type	Gear reduced electric	
Motor type	Permanent magnet DC	
Horse power	1HP	
Available voltage	24V / 36V / 48V	
Magnet size	6.5"/11.5"	152 x 292 mm
Magnet pole	8	
Magnet draw bar pull	1,800 lbs	818 kgs
Standard colours	Orange & blue	
Battery connector	Included	
Magnet time-out	Adjustable	
Arm travel speed	38 FPM	
Minimum fork length required	48"/1220 mm	

Control Unit

22-Year old unit replaced in 2022

FABRICATING & AUTOMATION

Our specialized team of machinists create tools, parts, products, and attachments to solve everyday material handling dilemmas while our team of automation experts focus on robotic engineering, PLC, HMI programming and process automation geared towards your specific manufacturing needs. We deliver world-class expertise by innovating products that help you meet the demands of day-to-day operations.

Let's get started on your next project.

- ✓ Operational Up-time
- ✓ In-house Manufacturing
- ✓ Safety & Security

- ✓ Automated Battery Handling
- ✓ System Design
- ✓ And more!
